

PROFILE SUMMARY:

Data Analyst with 1+ year of professional experience in Power BI, SQL & Advanced Excel, with working knowledge of Python. Proficient in data analysis, data modeling, dashboard development & report automation to enhance business efficiency. Adept at data visualization, stakeholder management & presenting complex data insights in a clear, concise, and impactful manner.

KEY SKILLS:

- Power BI
 - Critical Thinking
- SQL
 - Storytelling
- Advanced Excel
 - Problem-Solving
- Python
 - Attention to Detail
- Machine Learning
 - Creativity

EXPERIENCE:

- Data Analyst at Altruist Technologies Pvt. Ltd. | Navi Mumbai, Maharashtra** **February 2025 – June 2026**
 - Developed & deployed interactive dashboards using **Power BI, SQL, & Excel** to support data-driven decision-making.
 - Automated recurring MIS reports & workflow processes using **SQL, Power BI, Python, & Power Automate**, reducing manual effort & improving reporting efficiency.
 - Collaborated with cross-functional teams and stakeholders to gather business requirements and **lead development of customised reporting solutions**.
 - Ensured **data accuracy & reporting reliability** through data validation, transformation & process improvement activities.
 - Delivered **Power BI training** to MIS executives & senior management, empowering teams to automate reporting workflows & independently analyse business reports.
 - Data Analyst Intern at Unified Mentor | [GitHub](#)** **July 2024 – August 2024**
 - Analyzed employee attrition and e-commerce sales data; **cleaned, transformed, and prepared datasets** using **Power Query** to ensure accuracy. Designed **Power BI dashboards** to visualize key trends & support data-driven decisions.
 - Received a **Letter of Recommendation** for outstanding performance in **analysis and visualization**.

CERTIFICATION:

- Data Science Certification** **January 2024 – September 2024**
Vertocity | Hyderabad, Telangana
Achieved 90.9%; covered Advanced Excel, SQL, Power BI, Python, and Machine Learning.

EDUCATION:

- Bachelor of Engineering – Electrical Engineering** **June 2018**
Rungta College of Engineering and Technology (CSVTU) | Bhilai, Chhattisgarh
Graduated with 84%. Organized events and led community outreach initiatives through RISE and TEAM Society.

PROJECTS:

- Project 1: Resume Parser Model | ML, Python, SQL, Power BI, Excel | [GitHub](#) | [Live Dashboard](#)**

 - Developed an automated resume parsing and candidate analysis system using Python for text extraction, SQL for structured data storage, and Power BI for candidate insights visualisation.
 - Built an XGBoost-based model to predict candidate skill and improve candidate-role matching for recruitment decisions.
- Project 2: E-commerce Sales Analysis | Power BI | [GitHub](#) | [Live Dashboard](#)**

 - Analyzed relationships between product attributes, regions, and order types to identify cost-saving opportunities in distribution and supply chain operations, while gaining experience in e-commerce analytics and sales performance metrics.
- Project 3: Electric Vehicle Indian Market Analysis | Power BI | [GitHub](#) | [Live Dashboard](#)**

 - Analyzed EV sales, revenue, and growth trends across time, regions, manufacturers, and vehicle categories to identify high-potential opportunities, recommended data-driven rollout strategies & action to support market entry & expansion planning.
- Project 4: Adventure Works Sales Analysis | SQL | [GitHub](#)**

 - Leveraged SQL to analyze sales performance, and applied various SQL concepts from basic to advanced including aggregate functions, window functions, triggers, date/time manipulation, etc. to derive actionable insights & enhance data reporting
- Project 5: Stolen Vehicle Analysis | Advanced Excel | [GitHub](#) | [Live Dashboard](#)**

 - Developed a dashboard analyzing vehicle theft patterns using advanced Excel tools such as Power Query, Power Pivot, Pivot Tables, Charts, and lookup functions, providing actionable insights to enhance law enforcement strategies.
